

# Environmental Policy & Guidelines

Sun Hydraulics Corporation (the Company) is committed to leading the industry in minimizing the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimize waste by evaluating operations and ensuring they are as efficient as possible.
- Minimize toxic emissions through efficient use of water and energy.
- Raise environmental awareness, encourage participation, and train employees.
- Actively promote recycling both internally and amongst our customers and suppliers.
- Source and promote products to minimize the environmental impact of both production and distribution.
- Meet or exceed all the local environmental legislation relative to the Company in all countries we are present.
- Use of biodegradable or alternatives to chemicals while minimizing use of solvents.
- Continuously seek to improve our environmental performance.
